FLORA AND FAUNA COMMUNITY RESOURCES (if known)

Predominant fishery community:

Predominant wildlife community:

Endangered or threatened species and/or sensitive communities:

POTENTIAL DIRECT AND/OR INDIRECT ENVIRONMENTAL IMPACT ON HABITAT RESOURCES

RECOMMENDATIONS CONCERNING PROJECT DESIGN, OPERATION, LOCATION, ETC. TO PREVENT OR REDUCE IMPACT ON NATURAL RESOURCES

MITIGATIVE RECOMMENDATIONS TO OFFSET ENVIRONMENTAL IMPACT

FIELD RECONNAISSANCE DATA

Field Investigator(S):

Date of Investigation (Aerial):

Date of Investigation (Ground):

Time of Investigation (Aerial):

Time of Investigation (Ground):

Parameter Comments:

MARSH PARAMETERS FOR MITIGATION CALCULATIONS

Comments:

	00
Percent of open water area less than or equal to 1.5' deep in relation to marsh Surfac Mean high salinity during growing season (if known)	2e
